4D Ultrasound

With our new GE Volusion E6-BT16 4D Ultrasound you can see the image of your baby before birth in 3-Dimensional live motion! Our equipment is the newest state-of-the-art technology in Tifton and allows you to see your little bundle of joy yawning, kicking and moving around.

The best time for pictures is 28-32 weeks. We recommend drinking plenty of fluids the day before and the morning of your 4D ultrasound. This helps us get the best images of your baby.

4D Prices:

- \$75.00 for Gender reveal
- \$175.00 for 28-30 weeks 3D or 4D

4D Ultrasound Image vs. Birth
